## Sales Policies and How to Order

1. Orders from this USA Listing may be made by mail, FAX, telephone, or E-mail (JLKCSA@aol.com). If you have Internet access, the easiest way to order is to visit my web site (<http://www.jlkstamps.com>) and use my secure Visa/Mastercard on-line credit card order form.
2. Please order using the Scott Numbers only (may also use a description of the stamp as well). **All prices are in USA dollars and cents.**

Payment by cash, check (cheque), money order, or Visa / Mastercard credit cards. Payment in USA dollars or British Pounds Sterling only at the current published exchange rate. If a credit card is used by collectors outside the USA, the charges will be submitted in USA dollars and the conversion to your local currency will be done by the credit card company and not by me.
4. Stamps offered are Mint Never Hinged (Unmounted) with F-VF centering. **Any stamp that does not meet approval may be returned for refund or replacement.** The approval period is 15 days within the USA and 30 days outside the USA. 7. Every effort will be made to ship the orders within 24-48 hours of receipt. There may be occasional short delays when I am away at a stamp show.

They are becoming scarce and do carry a **significant premium** over the regular folded panes. If regular folded panes are desired, then please so indicate with your order. I will then try to do the best I can to comply with your wishes, but I generally do not keep the folded set-tenant panes in stock.

Scott has given these stamps the same number since they are S/A and there appears to be no difference between the stamps from the Convertible S/A Booklet Pane of 20 and Pane of 10 and the Folded ATM Booklet Pane of 15 and the S/A Sheetlet of 20. The Folded Booklet of 20 has the small 1999 in Red, and this stamp has been given a separate number. All the others have a large 1999 in Black.

There is no discernable difference between the Statue of Liberty Stamps from the Convertible Booklet of 20 and the Vending Folded Booklet of 20. The Statue of Liberty Coils can be found in the Coil Section on Page 16.

\* The Flowers are in an S/T Block of 4. The Convertible Booklet Pane of 20 has stamps on both sides while the Folded Vending Booklet

Pane of 20 has stamps only on one side. The stamps from the Vending Booklet Pane of 20 have noticeably brighter colors than the stamps from the Convertible Pane of 20 but have not been given separate catalog numbers. The Flowers Coil can be found in the Coil Section on Page 16.

The Flag Over Farm comes as regular gum in a Sheetlet of 20, S/A in a pane of 20, and S/A in an ATM Pane of 18. There are no Coils of this issue.

**This listing ends with the stamps issued through the year 2000.**

**I will not in the future be listing stamps issued after 2000 as this seems to me to be an appropriate ending point. It has simply become too complicated and too expensive for me to continue to list new issues.**

**Every attempt is made to have all the stamps listed available and in stock. Occasionally, a stamp will be out-of-stock. When that happens, I will replace the stamp as soon as possible and let you know when I expect it to be available.**

A number of the later USA stamps come in varieties of tagged vs untagged, block tagged, and overall tagged. Tagging on USA stamps can only be seen with certainty with a short wave UV light. These minor varieties are not usually listed on a general dealer's price-list because the American collectors as a rule do not seem to be interested in what are called flyspeck varieties. It does become quite a burdensome task to try to separate out all the varieties of tagging. If certain tagging varieties are required for your collection, you can send me a Want List and I will do my best in trying to fill it.

Please note that the **Flora and Fauna** series through 2000 can be found on Page 14. The Great American Series can be found on Page 14 and has now ended. The Transportation Coil Series found on Page 18 has also ended.

Folded Booklet of 20 \$25.00

**Beginning in mid-1995, a small year-date now appears in the bottom margin of all USA stamps. Some of the regular issues released in 1995 with the 1995 year date were reprinted in 1996 and the year date then changed to 1996 making it a different stamp. An example of this is the \$3.00 Space Shuttle stamp. The adding of the year date on the bottom of the stamp is now a standard with the newer USA stamps.**

Beginning with Number 1891, coil strips have plate numbers. These are generally collected as Plate Number Strips of 3 or 5. Line Pairs are no longer offered as the later coils no longer have lines. Coil Plate number collecting is a complex specialty in itself. I do not list plate number strips because of this. I can supply plate number strips by special order only. The one exception is Number 1947 which does have a Line Pair.

## Regular Issue Coils Continued

Beginning with Number 2489v, a number of coils were issued as self-adhesive (S/A) strips. These strips could only be obtained by mail from the Philatelic Sales Division. It is recommended that these S/A coils be collected as pairs because as singles the earlier ones are not distinguishable from the regular sheet S/A stamp. What distinguishes the early S/A coil stamps is the wide spacing between the stamps. These Self-Adhesive coil stamps are all designated by the "S/A" abbreviation.
